### Breezellets

The little girl who used to  
play big lady by putting on a  
long skirt, is now the old lady  
who plays little girl by putting  
on a short skirt.

We suppose the one who pos-  
sesses Lens can see the way more  
clearly to victory.

"Will study trench war at  
Sarree," says a heading.

A safe and sane place to study  
it.

So why are going to tax war  
profits more heavily are they?

Very good. But why not tax  
the kind that is spelled prophets?

The Germans are putting up a  
Riga-ous campaign, it seems.

The slacker believes in seeing  
Canada first, last and all the time

Yup! It looks as though  
someone was wacked in the  
stomach by Food Controller  
Hanna's ultimatum.

The Russian retreaters must  
be of the opinion by this time  
that it's a long way to Petrograd.

The Huns have put the Russ  
in the Russians, you bet.

They are Russian back home  
as fast as possible, with a Riga-  
worthy of a better cause.

Flat feet is no bar to army  
service. But it may be different  
in the case of the head.

The Allies would not object to  
getting the boys out of the  
trenches if it is done in a manner  
that will give proper assurance  
that they will never be put back  
into them again.

It will be easier to believe that  
Germany really expects peace  
when we have the assurance that  
she stopped the manufacture of  
munitions.

Hill 70 may be the key to  
Lens, but some one must have  
smashed the lock.

If 1,000,000 men would volun-  
teer for service immediately, it is  
more likely that peace would be  
in sight.

### Peace Moves That Count

Civilization is deeply interested  
in peace, and because it is in-  
terested in peace its attention  
just now is being centered upon  
the magnificent work being done  
for the cause of peace by the  
British army in the vicinity of  
Lens.

The capture of Hill No. 70 is  
the finest peace move that has  
happened since the very notable  
British advance at Wytschaete.  
In addition to being a valuable  
military achievement in itself, it  
drives home to the people of  
Germany the fact that Hinden-  
burg's impregnability is not im-  
pregnable.

Lens soon will fall. The pos-  
session of that important city  
and vicinity will be of great  
material value to the Allies, but  
of greater value to the cause of  
peace will be the effect of its loss  
upon the morale of the already  
disintegrating German people.

Each day brings us near peace  
not because of anybody's peace  
proposals, but because the armies  
of civilization are driving hard  
for peace.

### "Verdun," Knell of Kaiserism

Many things are being kept  
from the German people by their  
government, but the failure at  
Verdun and the mighty cost of  
that failure cannot be kept from  
them. They remember that cele-  
bration of Verdun's capture to  
which they were summoned many  
months ago. They recall the  
elaborate preparation of the Alli-  
Highest for a triumphal and  
military march into a fallen strong-  
hold that failed to fall. No amount  
of official misrepresentation can  
make them forget the husbands,  
and the sons and brothers driven  
to death to "save the face" of the  
chintziness of Kaiserism, whom  
they are expected to accept as  
their next divine-right ruler.

Verdun means that Germany  
will have no more divine-right  
rulers. The glory there is all on  
the side of the French. They have  
their beloved France. They have  
killed Germans, but they have  
done much more for the German  
people.

When Hohenzollerism, done  
to death, is compelled to release  
the people of Germany from its  
grip the world will know that its  
knell was sounded at Verdun.

### Chinook Breezes

Mr. and Mrs. Ruud left here  
on Monday to reside in Calgary.

Arthur Lensgraft spent last  
week in Calgary.

Miss Ruth Barns spent a few  
days at the home of her parents  
at Oyen.

Miss Lennie and Miss Crow  
spent a few days in Youngstown  
last week end.

Guns were barking good and  
early on Saturday morning, Sept.  
1st.

Stewart—At Victoria, B.C., on  
the 10th ulto., to Mr. and Mrs.  
Ed. Stewart, a daughter.

With the rain last week end  
came a touch of hail, but not  
enough to damage anything.

The trains both east and west  
were several hours late during  
the past week.

Miss Alice Peck of Phoenix,  
Arizona, is spending a few months  
at the home of her brother, Mr.  
A. H. Peck.

Mr. and Mrs. H. D. Sinclair  
and daughter, Clarison, motored  
from Saskatoon and spent the  
week end with Mr. Sinclair's sister  
Mrs. R. Stewart.

Alice and Blanche Deman and  
Dorothy Young left last week  
end to enter the convent school  
at Red Deer. They were accom-  
panied by Mrs. I. W. Deman.

Mr. and Mrs. E. B. Mills and  
family bid Chinook farewell last  
week, leaving in their auto for  
Detroit, their former home. Mr.  
and Mrs. Mills were among some  
of Chinook's "first" residents.

Bulldo a Nest

Mr. Lorne Prudfoot is build-  
ing a modern two-storey seven  
room house on his farm, two  
miles south-east of the town,  
fitted up with bath room, &c.

### Get a Nasty Snag

W. R. Hawkshaw got a nasty  
cut when his pony gave a sudden  
jerk on the tethering chain, the  
end of which Mr. Hawkshaw held  
in his hand. One of his fingers  
was badly ripped.

### I.O.O.F. Enjoy a Duck Supper

The members of the local Lodge  
of I.O.O.F. and their ladies en-  
joyed a duck supper together at  
the Acadia hotel, on Monday  
evening. From the menu pro-  
vided by Mine Host Carter, we  
would judge it was a feast of  
good things.

### Stanley Hubly's

#### SUDDEN COLLAPSE

That troubles seldom come  
singly is verified in the case of  
Stanley Hubly. A month or so  
ago the scaffolding on which he  
was working gave way, and was  
thrown violently to the ground,  
breaking his arm and badly shak-  
ing him up. Last week he was  
suddenly seized with a severe  
attack of appendicitis. He was  
hurried off to Calgary to undergo  
an operation. He is still in the  
hospital.

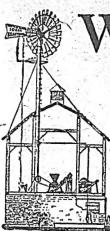

Since the above was in type,  
we regret to announce that poor  
Stanley has passed away. It  
seems that he had to undergo  
two operations—one for rupture  
and the other for appendicitis,  
under which he did not recover,  
suddenly collapsing on Tuesday  
and was buried at Calgary. The  
sad news created a sensation in  
Chinook, where the deceased has  
been a familiar figure among its  
earlier settlers, having a farm near  
By trade he was a carpenter, and  
has worked on many of the build-  
ings in and around Chinook. How  
true it is: "That in the midst of  
life we are in death," and yet so  
few of us ever give it a thought.

"The price of bread has been  
too high," says the Canadian  
Food Controller, "particularly in  
some sections. Whatever is  
necessary will be done—we hope  
agreedly to all concerned. But  
it must be done."

If faith will move a mountain  
that shows the difference between  
a mountain and some obstinate  
men.

Eat the vegetables that are  
plentiful and save the scarcer for  
later use. That advice is not  
original, but it is good, neverthe-  
less.

There are some people who do  
not give proper recognition to  
the National Anthem, and they  
may be divided in four classes,  
namely, the careless, the forget-  
ful, the ignorant and the German  
sympathizers. You see these  
people bolt from the theatres and  
other public places, or deliberate-  
ly keep their seats, at the strains  
of God Save the King. Which-  
ever of the four reasons can be  
given for their action, it at least  
serves as a cause for suspicion  
for their loyalty. In these times  
it is bad to be in any of the  
classes named.

### SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS

The sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Application must appear personally at the Dominion Land Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Land Agency (but not Sub-Agency), on certain conditions.

Duties—Six months' residence upon and cultivation of the land. The homesteader must be a stranger to the land, and may not have a home elsewhere. Duties—Six months' residence upon and cultivation of the land. The homesteader must be a stranger to the land, and may not have a home elsewhere.

A settler who has acquired his homestead right may take a purchased homestead in certain districts. Price \$100 per acre.

A settler who has acquired his homestead right may take a purchased homestead in certain districts. Price \$100 per acre.

Duties—Six months residence in each of six years after earning homestead patent; also \$20 extra cultivation. Pre-emption patent may be obtained as soon as the homestead is cultivated on certain conditions.

A settler who has acquired his homestead right may take a purchased homestead in certain districts. Price \$100 per acre.

Duties—Six months residence in each of three years, cultivate 50 acres and erect a house.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

#### RED CROSS

During the month of July a subscription for Red Cross work was taken at Big Stone post office. Those contributing were

John P. Moore  
Richard Dinnudie  
James Buyers  
Mrs. M. R. Harrington  
W. S. Falconer  
B. Abbott  
Grant Ferris

The sum of \$18.00 was realized in acknowledgment of which the following letter of thanks was received:

Calgary, Aug. 13, 1917

Dear Madam,

I beg to acknowledge with thanks receipt of letter of the 7th inst., enclosing \$18.00, being the result of subscriptions taken up at Big Stone post office for Red Cross work. We are delighted to hear that you were so successful in securing this money, and hope that you will extend our grateful thanks to all those who assisted in raising this amount.

I am very much distressed to find that we overlooked sending you the tags. We have a number on hand at the present time, and if you would care to sell them at your picnics at any time, we would be glad to let you have some.

The need for cash and supplies at the present time is enormous, and any help that you can give us in extending the interest in our cause in your district will be much appreciated.

Yours faithfully,  
Mary Pinkham,  
Hon. Sec.-Treas.

Mrs. J. Potts Moore,  
Big Stone, Alta.

Baron Rhonda, Food Controller of Great Britain, is considering the fixation of the price of a 3/4 pound loaf of war bread at 8 cents. This compares with 11 cents for 1/4 pound loaves in many Canadian cities, and 10 cents for 1 pound loaves in many country places. That is, in Britain, bread from Canadian wheat or flour after travelling 3000 miles at high rates, will sell at 5 cents a pound while in Canada the price is 7 and 8 cents, and often more, and not a submarine in sight. This is a situation for which the Canadian Food Controller is seeking to remedy, and if necessary he will fix the prices. In any event, however, Canadians must eat less bread and substitute other foods, for the whole world is short of bread.

"My idea of economy in feeding is to make a little of the usual meat foods go further by preparing them with vegetables and cereals," says a distinguished Scotch dietitian.

Lasher & Gillilan, Limited  
FARM AND RANCH LANDS

YOUNGSTOWN, ALTA.

We have prospects every week who are wanting land, and some prior to the Chinook district who are listing their good farms and can sell them for a good price, if the terms are right. Let us know if you want to sell, and we will be glad to mail listing forms on request.

Jos. Deman, Chinook representative.

## Do Not Know Germans Yet

### The Worst Savages on the Face of the Earth

Since Irish fishermen have been attacked by German U-boats in the recent past, the Germans have had their boats destroyed, nets and traps confiscated, and threatened with the destruction of their villages a change in the dream of the Irish, or at least the fishing fraternity, has taken place.

Here is the story of a careful fisherman who had saved up to buy a motor boat. She was a beauty and won the admiration of her crew and the envy of fellow-fishermen. With faith and fellow-fishermen, she catches her owner's prediction that she would soon pay for herself was rapidly being fulfilled. Then came the pirates.

Laden with fish, she was speeding homeward, when a rifle shot rang out. The arm of a German soldier, the owner's son, spurted a stream of blood and a German submarine appeared. "I teach you to stop when you are told," came in brutal tones from the deck of the submarine.

"We heard no order given to stop," was the only reply. The owner, recognizing that he was engaged in a desperate game of hazard, decided to play his trump card. "We are Irish; we are fighting for you."

"I do not care what you are. The next time you are ordered to stop, do so," said the submarine commander. Further, "you are feeding our enemies, the English, with this fish and your member of Parliament is complicit in this. You have to have a lot of fish is rotten by the time it reaches London. This fish, however, will not be bad when it gets there."

He ordered some of his crew to take what they required of fish and pitch the rest overboard. Meanwhile the commander searched the motor boat, and finding some valuable lines and a sail, bound them overboard, weighted them down, so he got a larger amount of fish. He then, with his crew with a sledge hammer, broke the spark plug and other parts of the motor engine, telling the owner that he would not then smash up the boat he had as he had further orders for it.

Returning to the submarine, he disappeared, but with little delay emerged again through the coming towers followed by a number of Irish fishermen whom he previously captured. The prisoners were ordered on board, the damaged motor boat, and the owner was perceptibly told to use a pair of "sweeps" to row them ashore. They were gallantly rowed ashore to be done. A sailor on shore was made for where the other fellows knew a doctor could be found.

When the wounded man's arm had been bandaged, he was turned towards home, where, after arduous labor at the "sweeps" and loss of valuable time, the owner arrived with his companions, a sad but much sadder man. An intensity of hatred for the submarine officer had replaced any other feeling that the Irish in the district may ever have had.

It was early in May that U-boats of the latest pattern, armed with bombs, were turned towards home, where, after arduous labor at the "sweeps" and loss of valuable time, the owner arrived with his companions, a sad but much sadder man. An intensity of hatred for the submarine officer had replaced any other feeling that the Irish in the district may ever have had.

An intensity of hatred for the submarine officer had replaced any other feeling that the Irish in the district may ever have had.

The Germans boasted that they had sunk the Kinseala fleet and the Waverly fleet in the Irish fleet of Baltimore, County Cork. One pirate about 300 feet long popped up in the midst of a fleet of eighty mackerel boats gave the fishermen a case that they had to return to their own boats, and sank some ten craft by bombs before a patrol appeared. The loss to the fishermen and their families amounts to thousands of pounds.

The Germans did not spare even the women, and, as far as the author is concerned, the fishermen take cars into their ports. One remonstrated with the U-boat commander: "I thought the Germans would do nothing to the Irish—that they liked us."

"They will follow, you don't know the Germans yet," was the commander's reply.

## Long Working Hours

### Girl Shell Makers Treated Like Slaves in Germany

Between the years 1932 and 1937, the number of women employed in German industries increased from four and one-quarter to eight and one-half millions. Yet in the latter year only 18,000 women found employment in war works because of the unsuitability of women for the destruction of their villages in the dream of the Irish, or at least the fishing fraternity, has taken place.

The war has changed all this, for by July 1, 1916, no fewer than 3,827,640 women were at work in the metal trades, by means, of course, the munitions industry.

During August and September last year the German Metal Workers' Union investigated the conditions under which the women were working, and published the results in a pamphlet entitled "It is an appalling indictment of the slavery which is possible under Kultur." We have heard a great deal about welfare work for the German masses before the war, but when he from the German Reichsmarxist the Reichstag passed an emergency law in August, 1914, giving the chancellor power to set aside all the factory laws and regulations for the working of women, people involved in the German Reichsmarxist.

Witness, for example, the Bethlehem Steel Company, which was so late in finding its voice. In its recent newspaper campaign to save its workers, the company has an absolute necessity for large and small undertakings alike, but especially for the big ones. The little fellow often has a mere pittance at stake, and his wages only a pittance, but the big concern, with its invested millions and its thousands of people involved, must break the traditional sense. This is an era when the desire to be a front-line soldier and to bring in the corporation must be part of the scheme of business.

The working hours of 36 per cent. of the women were found to be 54 weeks, while 63 per cent. of them were 52 weeks. It was found that women put in 75 to 84 hours in the week. The shift workers in some cases work 17 to 24 hours at a stretch.

Concerning those engaged in Silesia, the report says: "Same cloakroom, no opportunity to wash themselves, and the women are hollownecked, their eyes sunken and apathetic, while all sense for the joy of life has disappeared."

Women work hard. These women is no ventilation. The women had to lay on the driving belts themselves, which is dangerous on account of their clothes. Workwomen are often carried out of the factories, unconscious, saying that they have been to wash the walls of the cloakrooms—in many cases the absence of the same—are quite unquotable.

In the majority of cases the accommodation for meals is bad. The women have to sit on the ground to eat, and the food is not perceptibly good.

The prisoners were ordered

on board, the damaged motor boat, and the owner was perceptibly told to use a pair of "sweeps" to row them ashore. They were gallantly rowed ashore to be done. A sailor on shore was made for where the other fellows knew a doctor could be found.

Returning to the submarine, he disappeared, but with little delay emerged again through the coming towers followed by a number of Irish fishermen whom he previously captured.

## The Squire's Sweetheart

BY

KATHARINE TYNAN

WARD, LOCK & CO., LIMITED  
London, Melbourne, and Toronto

(Continued.)

"That is the worst of caring for someone very much," he said soberly. "One is apt to be so unreasonably afraid. Think, Don, there are two of us. We are not run over in the London streets without some account of them."

"I did not think of them being run over," the Squire said wearily. "He said no more—nothing of the thing he did for us."

He made an effort to rouse himself, while his eye turned towards the door. There was something in the way he warmed his hands as though the frost of age had suddenly come upon him. As the firelight played over his face, Hilary was astonished to see a faint smile hidden in it. Poor old Don! He had taken love very badly, since an inexplicable absence of a few hours of the girl he loved could have so ravaged his sensitive face.

"I can't say if you went back to town you would find them had returned," Hilary ventured. "I thought of going back by the ten o'clock. Better ring for some food and come with me. It is awful to sit and do nothing."

The Squire's face kindled for a moment with a gleam of life and energy which soon went out.

"She would not have come back," he said. "I don't know, though, if I had been to the fire. Besides, I have sent a message to Egerton to come to me here. I can't talk things over before that woman. Perhaps we may come to some conclusion between us."

"Then you won't want me! I had made up my mind to go back by the ten o'clock. I have plenty of time still."

"Can't you stay?" the Squire asked him. "Why should you run away, Hilary, when you have just come? You are not looking yourself. Been overworking? I thought you'd have been down a month ago."

I shall come back. As a matter of fact, I am really worried. You have not got all the troubles of life to yourself. Since I came down this afternoon, I've heard that old Gilbert South has filed a petition for divorce."

"Ah, that's bad; that's very bad!" said the Squire. "He'll be hounded out of court. He hasn't a leg to stand on, the old scoundrel. It will only make that poor woman white and him blacker."

"I will kill her," said Hilary briefly.

There was a knock at the door. The Squire looked up eagerly.

"I will hardly be Egerton yet," he said; but his face fell as William brought in the evening's letters on a tray.

"There may be some word," suggested Hilary.

The Squire turned over the letters rapidly. There was one he all knew would be. There was no letter in Dolly's large, somewhat unformed handwriting, which had been used to contain so many sweet things for a lover.

He put the letters on one side. Then took them up again and glanced through them more carefully. The superscription on one seemed to puzzle him. He opened it, took in the contents of the letter, then he extracted, then bent it to the outer, and the expression of his face changed.

"There is some news," he said. "Good! I told you it would be all right."

The Squire looked at him as though he had not heard or did not quite understand him.

"I wish Egerton would come," he said.

"Who told you the message?"

"Old Hall's grandson."

"I'll have time to call at the New Cottage, if I start now. The message may have miscarried."

I can't wait here. Do you know—of course you don't—how the ticking of a clock can be like the dropping of ice-cold water on your heart? I dare say we'll have to Egerton, if we can't run away with him."

"Have some food first. I ought to stay and see that you eat it, but I'll lose my train if I do. I'll send Egerton all right. You'll let me know at once what has happened."

"As soon as there is anything to tell."

The door opened again; and this time it was Lionel Egerton who came. Hilary showed him with his arm around one of his shoulders, so engrossed in his own troubles that he forgot to tell William that his master had not dined and that food had better be set in the dining room. And he was right, for he remembered the Squire had kept to himself, what was in the letter that contained news.

At Chappell Place he was disappointed—waited him. Mr. Langton was out of town. A new servant opened the door to him.

"When did he go?"

"He went yesterday, sir. He was very much in need of a holiday, it is urgent, sir, Dr. Verner, of Witt's service is seeing his patients, No. 11, sir."

"Thank you."

Hilary went away, baffled and defeated—walked through miles of unaccustomed streets, got back to his

### Interesting Letter From Front Trenches

(Continued.)

rooms in the small hours, and only then remembered that he had not asked when Mr. Langton was coming back.

He was at Chappell Place as early as he dared present himself in the morning to ask the question, but was met with a rebuff. Mr. Langton had not said when he was coming back. It might be a month, maybe six weeks.

Could a letter be forwarded to him?

Hilary's appearance forbade his being taken as an important date, which was just as well. He noticed that the house had a decidedly air—a cleaning-up going on, evidently.

The man was especially enough that Mr. Langton's were not to be forwarded, as he would be told. Hilary went away more baffled and disturbed than ever. After a few days, during which he had walked and drove about northwest London, hoping finally to come upon something which the house could recognize from that night right in Mr. Langton's motor, he went and interviewed Dr. Verner—a fat, rather foolish-faced young man, who was not really Hilary, though he tried to deprive Mr. Langton of his patients.

Dr. Verner a glass in one eye that turned a fixed glare on Hilary, regretted that he was not in a position to give Mr. Egerton—Strangways any information which might enable a letter to reach Mr. Langton.

The colonel of this battalion was recently one thousand pairs of socks for the boys, but of course unless we could get from the towns and cities where the battalions are organized and from profits on regimental canteens which their long periods of training in Canada made possible as a result of the general experience of the first division at Valenciennes.

He added, in a more human and friendly way that Langton was always a solitary fellow. He had been just the same, though he had been up to Oxford with Dr. Verner's patient, Sir William Verner, you know. Langton was quite popular according to Sir William Verner, but always a quiet fellow, though he had retired a more and more into his shell as

## Why Don't Restaurants Use Sticky Fly Paper

Instead of nauseating Guests With the Gory Fly Swatter.

Now that fly time is again with us, deters at many restaurants are forced to use the gory fly swatting campaigns while endeavoring to enjoy the food ordered.

Unless one is blessed with more than ordinary poise, such interludes take the joy out of life and make the restaurant manager a nervous wreck. Why don't restaurant managers and soda fountain clerks and all who offer the public food and drink come to their senses and substitute the obtrusive fly swatter for the reliable sticky fly paper that does the work quietly but so thoroughly?

So you, the innocent bystander, can eat untroubled by buzzing marauders or an active campaign for their extermination.

And let me remember, Mr. Restaurant Keeper, that flies in the dining room, swatted and unswept, indicate more flies in the kitchen and general outhouse conditions. They are a sure sign of poor housekeeping, very easily eliminated from your domestic arrangements by good screens, and the above mentioned fly paper. You would be horrified at the idea of insects or cockroaches invading the sanctum of your dining room, but flies are just as objectionable. Clean them out and let your patrons eat in peace.

## SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little ones into a feverish condition quickly, unless prompt aid is at hand—help may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera, infantile dysentery, and other maladies prevail. And one of these troubles may prove deadly if not promptly treated. During the summer the mothers' best friend is Baby's Own Tablets. They regulate the bowels, and are a great aid to the weakly healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Rockville, Ont.

## German Public Uneasy

The crown council called by Emperor William was held at Berlin, according to an Exchange despatch from Amsterdam, but no announcement as to what took place at the gathering has been made.

The German public is very uneasy regarding the success of its efforts to defend the front, of which the emperor held a meeting.

Other efforts from the same source to the front of the crown council lasted three hours, beginning one of the longest, on record since July, 1914, when Emperor William signed the mobilization order that preceded the declaration of war.

The ministers of both the empire and the kingdom were in attendance, together with the members of the emperor's military and naval cabinet.

It is believed, says the despatch, that only the rest of the council will be the occasion of a bill for Prussia granting universal direct suffrage and the secret ballot.

Farmer—On which side do you think the war is won?

New War Hand—The outside.

## WOMAN SICK TWO YEARS

Could Do No Work Now Strong as a Man.

Chicago, Ill.—For about two years I suffered from a female trouble so I was unable to walk or do any of my own work. I read about Lydia E. Pinkham's Vegetable Compound in news papers and determined to try it. It brought almost immediate relief. My weakness has entirely disappeared and I am in better health. I weigh 165 pounds and am as strong as a man. I think money is well spent which purchases Lydia E. Pinkham's Vegetable Compound."—Mrs. Jos. O'Bryan, 2765 Newport Ave., Chicago, Ill.

The success of Lydia E. Pinkham's Vegetable Compound in curing roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from dislocations, inflammations, rheumatism, irregular periods, periodic pains, backache, drawing-diseases, flatulence, indigestion, nervous prostration. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

## Cost of Preserving Greatly Exaggerated

Women Now Determined to Save the Fruit Crop

Last summer many women did not put up their regular supply of home-made preserves; and bitterly they regretted it. They became scared at what they called the high price of sugar, when sugar was raised 71-1/2 cents a pound, they said, when sugar sold at 8 cents and 81-1/2 cents, permitted the luscious peaches, pears, plums and apples to rot on the bushes.

But never again. This summer will see a genuine, old time revival in homemade preserving; because the women of Canada now realize what a foolish extravagance it was to do without preserves; especially when the increased cost of putting them up is infinitesimal.

As a matter of fact, every woman can prove—with her first lot of strawberries—that the increased cost of sugar is infinitesimal.

Turning back the files of papers publishing market prices, we find that in 1912, 1913 and 1914, up to the outbreak of war, the average price of granulated sugar was 12-1/2 cents a pound. Today the home-grown, sugar retails at 81-1/2 cents. This is an average of 3 cents a pound for the whole of the country.

A quart jar of preserved berries cost 45 cents; requiring that the increased cost of sugar, is only 11-1/2 cents a quart, compared with the cost of preserving before the war when sugar was 8 cents.

Now is the time for the women of Canada to come gallantly to the aid of the country, and help to secure our food supplies. The fruit crop this year promises to be a record one, in quality and quantity. Foreign markets being closed, because of the shortage in transportation, it rests almost entirely with our homemakers as to whether this crop will not be a source of profit to complete loss.

With the home pantries filled with delicious jams, preserves and jellies; with these delicacies served for dessert instead of pies and custards, quantity and quality will be released for the troops in France and for the starving children in Russia.

A careful consideration of the above facts will show that sugar is not high for preserving profitably; that the increased cost of sugar has not materially increased the cost of homemade preserves; and that preserving is both an economy and a patriotic patriotic act.

State of Ohio, City of Toledo, Lucas County, Ohio.

Farmer—Please make out that I am senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, Ohio. We are engaged in the manufacture of DOLLARS for each and every case of CAYENNE PEPPERS, and are the only ones in HAMILTON CAYENNE CURE.

## Enemy Aviators Afraid

Captured Pilot Relates Why He Died to Earth Instead of Being Shot in the Head

German aviators are being told by their superior officers that capture by the French or Americans means torture. Evidence comes from the front of the enemy's growing lack of morale and the fear that they will be captured.

The British aviators, the aerodrome of the Lafayette Escadrille, Aviator Gaier, French flyer of an escadrille working in conjunction with the American birdmen, when he entered the British lines, was shot down and his plane was captured.

Nearby will be a fully equipped hospital, the only one of accident cases.

The headings in the tube, the various workshops, the hospital and the village will all be connected by telephone, and the chief engineer will also be in close touch with the military authorities.

Shocked at Depravity of Enemies

The Reichstag was recently opened with a speech by the president, who said that the German people were as yet as ignorant and disinterested as the world.

He explained that during the combat, his machine gunner had been impressed that they would be

more afraid to look at the attacking French machine.

Before leaving their aerodrome both had been impressed that they would be

deemed to have violated the laws of war.

They were accordingly relieved when told that a prison camp

with better food than they might expect in Germany was the worst they could expect.

Canada's Trade Still Going Up

Canada's total trade for April and May, the first two months of the fiscal year, was \$408,600,875, compared with \$269,509,815 for the same two months last year. Imports amounted to \$194,041,183 and exports \$214,565. Imports for May amounted to \$109,539, an increase of nearly forty million. Exports for the same period were \$132,000,000, an increase of fifty-five cents. There was an increase in every class, the big increases being twenty-five million agricultural products and twenty-five million in manufactured customs.

Revenue for May increased four million.

"You won't give me a kiss to remember you by?"

"You'll remember longer the kiss you didn't get," said the wise girl. And he did.

## Co-Operating With American Fleet

Brazil Helping to Hunt German Sea Raiders

Brazil's navy has begun co-operating with the American fleet in South American waters in hunting down German sea raiders and watching for German submarine.

Sendings of a special diplomatic mission to Brazil to arrange for greater co-operation of forces and the closest possible co-operation of the two governments is under consideration.

Without formal declaration of war, Brazil thus practically has joined the United States against Germany. Whether Brazil will supplement her forces by a formal declaration of war is regarded as doubtful because the government at Rio de Janeiro is inclined to regard its action rather as defensive than aggressive.

Brazil's seizure of the war-bound German ships is added to her merchant marine, more than 150,000 tons which with that already at her disposal will, it is believed, contribute materially to the solution of the problem of getting supplies to the Allies.

Brazil is the newest of the South American group and in connection with the American fleet commanded by Admiral Caperton, it is the second to receive the task of keeping the seas safe from enemy craft.

A plan for safeguarding ships carrying foodstuffs to Europe already has been put into effect.

Sores Heal Quickly—Have you a persistent pain which refuses to heal? Then try Dr. Thomas' Electric Oil in the dressing. It will stop sloughing, carry away the pustule flesh, draw out the pus and prepare a clean way for the new flesh. It is the recognized remedy for the healing of burns and other skin diseases.

Now is the time for the women of

Canada to come gallantly to the aid of the country, and help to secure our food supplies. The fruit crop this year promises to be a record one, in quality and quantity.

Foreign markets being closed, because of the shortage in transportation, it rests almost entirely with our homemakers as to whether this crop will not be a source of profit to both an economy and a patriotic patriotic act.

With the home pantries filled with delicious jams, preserves and jellies; with these delicacies served for dessert instead of pies and custards, quantity and quality will be released for the troops in France and for the starving children in Russia.

The French participants in the project are all ready to do their share.

They have obtained the legal permission required and are assured of the necessary capital despite the financial drainage of the war.

The French government, many years ago made available for a terminal between Sangerue, and the British railroad connecting the two at the end of the tube on this side of the channel.

vance; to the United States and  
Old Country, \$1.50Legal Advertising, 12 cents a line for the first  
insertion and 8 cents a line each subsequent insertion.Lost, Strayed, or Stolen. Ads. 50 cents first in-  
sertion, 25 cents each subsequent insertion.Special Notices in the local columns to come per  
line each insertion.A. NICHOLSON,  
Editor and Proprietor**Chinook Breezes**

This year's grain is coming in  
to the elevators. Most of it so  
far has graded No. 1.

Vaughan—At Chinook, on the  
Aug. 24th, to Mr. and Mrs. A. T.  
Vaughan, of Rollinson, a son.

Rollinson—At Rollinson, on  
August 30th, to Mr. and Mrs.  
Rollinson, a daughter.

Wanted, a good strong girl for  
general housework. Good home  
Apply at the Advance office.

Mr. and Mrs. Garcelan and  
two children of Calgary are visiting  
their aunt, Mrs. Abbie George

**That Old Creepy Feeling**

The weather has a decided  
Fall feeling; and Winter clothing  
has made its appearance this  
week.

**Was Wanted Badly**

A Young People's Society was  
formed in connection with the  
Chinook Methodist church, par-  
ticulars of which will be given  
next week.

**Anyone Know Him?**

Mr. M. J. Hewitt received the  
following telegram on Thursday,  
from I. W. Mitchell, Calgary:  
"Private E. Lawson leaves for  
home to-day." Does anyone  
know the Private Lawson referred  
to in the telegram?

**No More Sunday Newspaper  
Reading**

In future no mail will leave on  
the passenger trains leaving on  
Saturday night at Calgary and  
Saskatoon for delivery on Sunday  
along this line, but will leave on  
Sunday night instead, for delivery  
on Monday.

**Still "Off Again," Flanagan**

Three or four cars of the pas-  
senger train leaving Calgary on  
Wednesday evening went off the  
track somewhere between Rosebud  
and Drumheller. Up to the time  
of going to press they are still  
"off again," Flanagan.

**Will Need Them All**

To-day, lumber was unloaded  
west of the Western Canada Flour  
Mills Co.'s elevator for another  
elevator for Chinook. Name of  
owner at present unknown. In  
1914 Chinook had two elevators.

In 1917 there will be six, besides  
70,000 bushel bin space in the  
annexes.

**The Weather Spoiled It**

A Red Cross tea was arranged  
to have been held at the home of  
Mrs. Chas. Ailsworth on Thurs-  
day of last week, but the weather  
being very unpropitious, not  
many were present. That was  
unfortunate, as Mrs. Ailsworth  
had generously prepared for a  
large crowd.

The ladies aid will meet on  
Wednesday at the home of Mrs.  
A. Nicholson.

Mrs. I. W. Deman is spending  
two weeks with friends and  
relatives in Granum.

Mr. Ed. Stewart of Victoria,  
B.C., is here looking after his  
crop interests.

Found, a crank belonging to a  
gasoline engine or a tractor.  
Owner can have same by paying  
for this advt. Now, this "crank"  
problem is no joke.

Last Sunday evening, the Rev.  
Mr. Elliott occupied the pulpit of  
the Oyen Methodist church, in  
the absence of their pastor. Mr.  
Parkin occupied the pulpit here.

**Will Always be Appreciated**

Don't forget to write a letter to  
our Chinook and district boys  
who are at the front.

**Gets a Black Eye**

That heavy front early on  
Wednesday morning gave a  
"black eye" to much of the garden  
stuff.

**Remember!**

Don't forget that the Sunday  
service at the Chinook Methodist  
church commences at 7 o'clock  
p.m. instead of 7:30.

**At the Front**

Chinook was well represented  
in the duck-shooting contest on  
Labor Day, almost everybody  
bringing home a full bag, which  
should help some towards the  
h. c. l.

**Why Stand Ye Idle?**

Ed Turner went to Calgary the  
first of the week and engaged  
ten men for harvest work, at \$4  
a day. He says there are hundreds  
of idle men there, waiting  
for something to do.

**Help Them to Forget the Horrors**

A very urgent request is made  
by the executive of the Y.M.C.A.  
for old or new magazines for the  
use of the boys at the front. All  
magazines, &c., can be left at this  
office for that purpose, and we  
will forward them on to head  
quarters. Do something to help  
the boys to try and forget the  
hardships and dangers of trench  
life.

**Bright Future Outlook**

After a week's vacation of the  
Principal's room of the Chinook  
consolidated school, started again  
on Tuesday. In the high school  
work, 2 pupils are taking Grade  
IX, four Grade X., and three  
Grade XI. There are others to  
come after the harvest. The pros-  
pects were never better for high  
school work at Chinook school,  
under the able Principalship of J.  
W. Yake, B.A.

**Much Appreciated**

The choir of the Chinook  
Methodist church has been re-  
organized, with Mrs. J. R. Miller,  
organist; Mr. J. W. Yake, leader,  
Soprano; Mrs. W. W. Isbister,  
Mrs. Jos. Deman, Misses Lennie,  
Mary Rogers, Florence Rogers,  
and Holman; alto: Mrs. Elliott  
Miss Crow; tenor: Messrs. J. R.  
Miller and A. Nicholson; bass:  
Messrs. H. Connah, J. Sandman,  
and Dillon. It is expected that  
other names will be added to  
the above list.
